# P R E F A C E

India presents a unique case in terms of sheer size of its population characterized by heterogenity in respect of physical, economic, social and cultural conditions. Its population of 685 million accounted in 1981 (double of the 1947 figures of 342 million) for about 15% of the total world population with only 2.4% of the total land area (3287.3 thousand sq.km.).The present estimate of the population as on 1st March'90 is about 822 million of which 73% resides in over 5.8 lakh villages spread over 446 districts.

The Republic of India has a federal structure consisting of 25 States and 7 Union Territories. According to the latest estimates released by the Registrar General of India based on SRS, the All-India figures of birth, death and infant mortality rate are given as hereunder:

| Area | Birth * Rate | Death * Rate | Infant * Mortality Rate |
|---|---|---|---|
| Combined | 31.5 | 11.0 | 94 |
| Rural | 33.1 | 12.0 | 102 |
| Urban | 26.3 | 7.7 | 62 |

* = for 1988

The Constitution of India envisages the establishment of new social order based on equality, freedom, justice and the dignity of the individual. It aims at the elimination of poverty, ignorance and ill-health and directs the State with regard to the raising the level of nutrition and of the standard of living of the people and amongst its primary duty, securing the health and strength of workers, men and women, especially ensuring children are given opportunities to develop in healthy manner. Constitutionally while public Health, sanitation, hospitals and dispensaries are the responsibilities of the States, population control and Family Planning, drugs, prevention of food adulteration are concurrent subjects.

India achieved independence in 1947. Soon thereafter, in 1951, India initiated the process of planning development to raise the living standard of its people, and to open up for them new opportunities for a richer and more varied life.

The programme of establishing of primary health centres with 3 sub-centres and 4 to 6 beds per primary health centre (PHC) in Community Development Block, having a population of 60,000 to 80,000 was launched as an integral part of the Community Development Programme in October, 1952

Consequently, over the past nearing 4 decades the health services organisation and infrastructure have undergone extensive changes and extension in stages following review by a number of expert committees, namely the Mudaliar Committee (1962), Chadha Committee (1963), Mukherjee Committee (1966), Jungalwala Committee (1967) , Kartar singh Committee (1973), and Srivastava committee (1975). Progressive changes have been introduced into the programme over the 6th and 7th Five Year Plan

periods.

India is a signatory to the Alma Ata Declaration of 1978 and is committed to attaining the goals of "Health For All" by year 2000 A.D. through the primary health care approach. Consequently while formulating the 6th Five Year Plan (1980-85), a critical review was made of the approaches adopted during the previous Five Year Plans. Based upon this, a long term perspective plan was outlined by the Government for achieving the Health For All goals. The National Health Policy was officially adopted by the Parilament in 1983. Health For All principles and strategies were also incorporated in the 6th & 7th Five Year Plans.

After India became a signatory to Alma Ata Declaration of 1978, the Government has started concentrating on the development of rural health infrastruture so as to provide health care services to about 80% of rural population which had by and large remained neglected. The stress in the National Health Policy is on the provision of preventive, promotive and rehabilitative health services to the people, thus representing a shift from medical care to health care and from urban to rural population. The main objective is to place the health of the people in hands of the people through the primary health care approach.

The delivery of Primary Health Care is the foundation of rural health care system and forms an integral part of the national health care system. For developing country's vast human resources and for the acceleration and speeding up of the socio-economic development and attaining improved quality of life, Primary health care is accepted as one of the main instruments of action. Primary Health Care is essential health care for all citizens, easily accessible and at a cost which the citizens and community can afford.

In the rural area services are provided through a network of integrated health and family welfare delivery system. Health care programmes have been re-structured and re-oriented from time to time for attaining the objectives of national health policy for HFA by 2000 A.D. Priority has been accorded to extension, expansion and consolidation of the rural health infrastructure viz., sub-centres, primary health centres and community health centres. Primary Health Care pays particular attention to the point of initial contact between the members of the Community and the health services. Sophisticated and specialised needs are referred to secondary and tertiary levels. The dimensions taken into consideration while delivering health services in rural area are : i) appropriate technology, ii) affordability, iii) availability, iv) accessibility and v) acceptability.

Details of the rural health programmes are given here under:

i. DAIS TRAINING PROGRAMME:

Dais training programme aims at imparting training to all traditional practising dais in the country and is receiving priority attention in order to reduce the maternal and infant mortality rates by conducting aseptic deliveries and provide

better ante-natal and post- natal care. The duration of the training is one month. So far 600606 dais have been trained.

ii. VILLAGE HEALTH GUIDE SCHEME:

The scheme was introduced during Oct.1977 with the objective of providing a cadre of voluntary health workers selected by the village community, and they would undergo training of 3 months duration in the promotive, preventive and elementary health care aspects so as to provide integrated primary health care services at the village level. This Volunteer would undergo training at the nearest PHC or sub-centre. So far, 410835 Health guides have been trained.

iii. SUB CENTRES:

Sub-centres are being established on the basis of one sub-centre for every 5000 population in general and for every 3000 in hilly, tribal and backward areas. Each sub-centre is manned by a trained female Health Worker (ANM) and a trained male Health worker.

iv. PRIMARY HEALTH CENTRES:

Primary health centres are established for an average of every 30,000 rural population in general and for every 20,000 population in hilly, tribal and backward areas. This primary health centre is manned by a Medical Officer, and other para-medical staff. Each PHC provides supportive supervision to 6 sub-centres and serves as a referral institution for these sub-centres.

v. COMMUNITY HEALTH CENTRES:

It has been decided to have one community health centre for every 80,000 to 1.20 lakh of population so as to serve as a referral institution, having a minimum of 30 beds and 4 specialists, for 4 Primary Health Centres.

vi. TRAINING FACILITIES:

A large number of training centres/schools have been established in the country to train ANMs,LHVs and Multipurpose Workers (M). Regional Teachers Training Institutions have also been established in order to meet the shortage of Nursing teachers/nurses in the Female Multipurpose Worker School.Health Worker (Male) Schools are also being established in the country. Training programmes were initiated for the training of lab-technicians, community health officers (CHO), pharmacists and specialists working at primary health centres and community health centres. 47 Health & Family Welfare Training Centres (H&FWTCs) are also playing a very useful role in the training programmes.

| | Total | 25 |

## NATIONAL NORMS

1. Atleast one trained dai.....for each village

2. One trained Village Health Guide.....for each village/ 1000 population.

3. One Sub-Centre.....for every 5000 population in plain area & for 3000 population in tribal,hilly and backward area.

4. One Primary Health Centre(PHC).....for every 30,000 population in plain area & 20,000 population in hilly, tribal and backward area.

5. One Community Health Centre.(PHC).....for every 80,000 to 1,20 lakh population, serving as a referral institution for four Primary Health Centres.

6. Sub-Centres Covered by a PHC : 6 Sub-Centres

7. PHCs Covered by a CHC : 4 PHCs

8. Population covered by a Health Worker (Male & Female)
   i) 5000 in Plain area
   ii) 3000 in Trible, hilly and backward area

9. Population covered by a Health Asstt (Male & Female)
   i) 30,000 in Plain area
   ii) 20,000 in Trible, hilly and backward area

10. One Health Asstt (Male /Female) Supervises the work of 6 Health Wokers (Male / Female)

# I N T R O D U C T I O N

A Quarterly Bulletin on "Rural Health Statistics in India" is being regularly brought out by the Rural Health Division of the Directorate General of Health Services, Nirman Bhawan, New Delhi - 110 011. It provides information based on latest available statistical data on various aspects of the following major schemes :

INFRASTRUCTURE

a) Establishment of sub-centres, Primary Health Centres and Community Health Centres.

b) Number of PHCs & sub-centres required and in position in Tribal Areas.

c) Construction of buildings for sub-centres and PHCs.

TRAINING

a) Dais Training Programme

b) Village Health Guide Training Programme.

c) Alternative Health Guide Scheme.

d) HW,(F)/ANM, and HA,(F)/LHV, Training Schools and their Training Programme.

HEALTH MAN-POWER

a) Health Man-power in Rural Areas.

The material of this Quarterly Bulletin has been divided into four parts. Part I contains all-India status in respect of primary health care facilities and some other relevant basic facts. State/UT-wise position of progress of primary health care facilities in India is given in Part II.While Part III contains some parameters of achievement by States and UTs in respect of rural health programmes. 8th Finance Commission Grants for upgradation of Standards of Administration; Health Sector, and 9th Finance Commission's recommendation, expenditure on minimum needs programme under Health sector, Outlay and expenditure on MNP under Health sector during 1985-89. Patterns of Central financial assistance for the various rural health scheme are incorporated in Part-IV.

We express our deep gratitude to the States & UTs for making available their performance statistics in time for the inclusion of the same in the bulletin. However, inspite of our best efforts to get the information on time from all the States & UTs, still some States/UTs lagged behind in this regard.

I place on record my appreciation of the efforts put in by Deputy Director(RHD) and his team of Statistical Cell in bringing out this publication. Thanks are also due to Shri Yogesh Goel, Programmer and his colleagues for computerisation of this Bulletin.

It is hoped that this quarterly bulletin, in spite of its some inherent limitations, will be used as an important source material by those who are involved in the field of health administration, planning & management and decision making for implementation of various rural health schemes.

Dr. A. MAZUMDAR
Dy. Director General of Health Services

## SOME PARAMETRES OF ACHIEVEMENTS OF RURAL HEALTH SCHEMES IN INDIA

STATEMENT - XV

LEVEL OF ACHIEVEMENT OF SOME NORMS
ALL INDIA POSITION AS ON 30.06.1990

| Sl. No. | Parameters/indicators | National Norms | Norms achieved/ established (Approximate) |
|---|---|---|---|
| 1 | 2 | 3 | 4 |
| 1 | Population covered by a Sub-centre | 3000-5000 Pop. | 4597 |
| 2 | Population covered by a PHC | 20,000-30,000 Pop. | 29198 |
| 3 | Population covered by a Community Health Centre | About 1 lakh Pop. | 3.24 Lakhs |
| 4 | No. of sub centres for each PHC | 6 Sub-centres | 6.3 Sub-Centres |
| 5 | No. of Primary Health Centres for each Community Health Centre | 4 PHCs | 11.1 PHCs |
| 6 | Trained Village Health Guide | One for each Village/ 1000 population | 1.43 Villages/ 1459 Population |
| 7 | Trained Dai | Atleast one for each village | 1.00 Villages 998 Population |
| 8 | Population served by Health Workers (Male and Female) | M: 3000-5000<br>F: 3000-5000 | 7282<br>4882 |
| 9 | Ratio of HA(M):HW(M) | 1:6 | 1:3.6 |
| 10 | Ratio of HA(F):HW(F) | 1:6 | 1:6.8 |
| 11 | Average Area covered by a Sub-Centre | | 24.11 Sq.km. |
| 12 | Average Area covered by a PHC | - | 153.09 Sq.km. |
| 13 | Average Area covered by a CHC | - | 1697.21 Sq.km. |
| 14 | Max.radial distance covered by a Sub-Centre (in km.) | | 2.76 Km |
| 15 | Max.radial distance covered by a PHC (in km.) | | 6.98 Km |
| 16 | Max.radial distance covered by a CHC (in km.) | | 23.24 Km |
| 17 | Average number of villages covered by a sub-centre | | 4-5 |
| 18 | Average number of villages covered by a PHC | | 29 |
| 19 | Average number of villages covered by a CHC | | 320 |

## SOME IMPORTANT APPENDICES

8th Fininance Commision's recommendation

Expenditure on M N P

Under Health Sector

STATEMENT XX

## 8TH FINANCE COMMISSION GRANTS FOR UPGRADATION OF STANDARDS OF ADMINISTRATION : HEALTH SECTOR :

In order to attract doctors to the rural areas, the 8th Finance Comission had recommended the following incentives:

a) Construction of 5600 residental quarters for the PHC doctors at a recommended cost of Rs.4950.26 Lakhs.

b) Grant of rural allowances to the doctors working in the rural areas at the rate of Rs. 250/- p.m. per doctor.

c) Grant of house Rent Allowances @ Rs. 150\- p.m. wherever accommodatation is not provided ; and

d) Grant of Rs. 10,000\- per PHC for purchase of equipment to ensure professional satisfaction of doctors.

## 9TH FINANCE COMMISSION'S RECOMMENDATION

The 9th Finance Commission in their first report have recommended an outlay of Rs.946.36 Lakhs for upgradation of standards of Health Administration in 16 States during 1989-90. This amount is meant for the constrution of additional quarters for Doctors working in PHCs . The unit cost of construction assumed by the Finance Commission is Rs.1.25 lakhs for plain areas and Rs.1.62 lakhs for hilly areas. The detailed State-Wise grants recommended by the 8th Finance Commission and utilisation thereof and the grants recommended by the 9th Finance Commission for 1989-90 are given below:
